

20 July 1984

MEMORANDUM FOR: DDI
FROM: DCI
SUBJECT: George Kolt

*Not the
Register*

I had a good talk with Charlie Gabriel. He didn't know much about George Kolt but was interested and reacted well. There will be a promotion board there sometime this fall. I should send him a letter telling him about this promotion, telling him that we are reorganizing the NIO jurisdictionalwise to capitalize on George's special expertise and give a rundown on the major responsibilities and contributions that George has undertaken and met here, itemize the studies, etc. Charlie will get that into his file so that the promotion board knows how well we think of him, what he has done here and what his qualifications are. I would also tell him this is major job as I outlined to him over the telephone. I suspect that apart from Gorman he didn't know who I was talking about in Whitehead and the others.
